

AM I RUNNING 32 OR 64 BIT WINDOWS?

It is important that you download the correct Activdriver for your version of Windows. If you are unsure, this brief guide describes how to identify your version of Windows.

1. Right Click on "My Computer" and choose "Properties" from the context menu.
2. If you are running a 64-Bit Windows then this will be referenced in the System section of the General tab. If not, then you are running a 32-Bit Windows version.
