

Option B Install Help – Activstudio 3.0

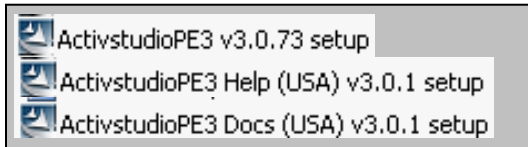

Section 1: Documents/Application Download

Below is a chart that provides a description and size of the files available at the bottom of the download page. Download these files in the order specified below. Be sure to save each downloaded file together in the same folder to more easily locate them.

Step 1	Option B ReadMe file	9.03 KB	Technical information about the program
Step 2	Option B Activstudio Version 3 Installation Setup	22.5 MB	Activstudio 3.0 Application
Step 3	Option B Help Installation	6.74 MB	Activstudio 3.0 Help files
Step 4	Option B Documents	10.2 MB	What's New in 3.0 overview and user manuals for the Activclassroom in PDF format

Once you have downloaded the software and help files, you will need to install them:

1. Locate each of the following files on your PC:

2. Click on the setup.exe for each file and follow the on screen instructions to install.

You are now ready to move on to Section 2: Resources Download.

Section 2: Resources Download

If you are currently working with a version of the resource library that is lower than 2.5.2, you may either download the entire resource library from the download page, or you may order a version 3.0 CD set. Please note that, although we are currently taking orders for the 3.0 CD set, the CDs will not be available until late March 2007.

Downloading Resource Packs

You are now ready to download the Resource Packs for Option B at the bottom of the Download page! Below is a chart that provides a description and size of the resource files available at the bottom of the download page. Download these files in the order specified below. Be sure to save each downloaded file together in the same folder to more easily locate them.

Step 1	Option B Core Resource Setup	54.9 MB	Annotations Collections Backgrounds Page Templates Flash Activities Sounds Shapes Lines

Please see Installing Activstudio Resources on page 4 of this document for assistance in installing Resource Packs.

If you need assistance, please contact Promethean tech support (support@us.prometheanworld.com).

Installing Activstudio Version 3.0 Resources

Please install the Activstudio software first (ActivstudioPE3_v3.0.73_setup.exe).

After installing the Activstudio software, ensure that you have the following resource files downloaded and located together:

Step 1

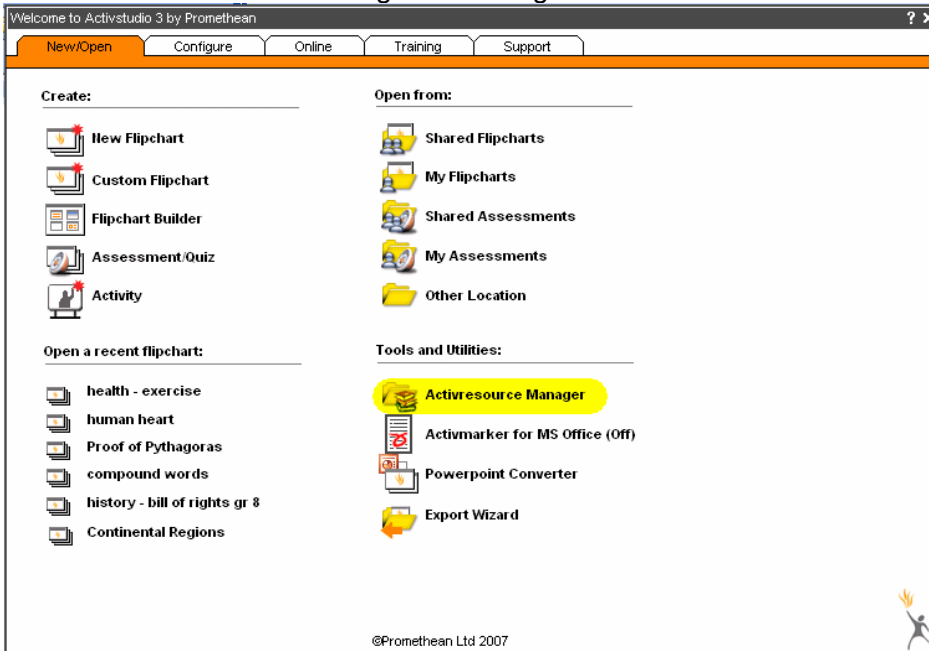

Double click on ActivstudioPE3_Resources_(USA)_v3.0.1_setup to install the core set of resources. Follow the onscreen instructions to complete installation.

Step 2

Double click on the Activstudio Professional Edition V3 icon on your desktop to launch Activstudio. You will then see the dashboard appear.

Click on Activresource Manager on the right side of the dashboard.

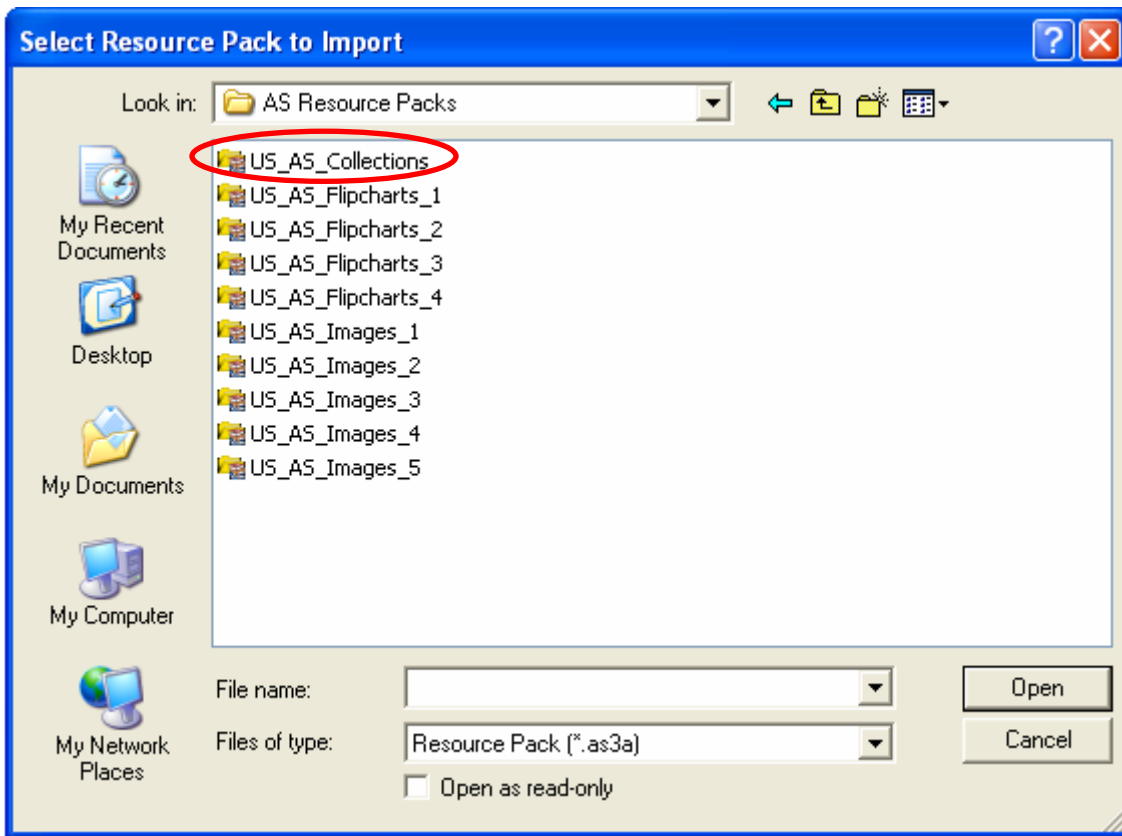

Step 3

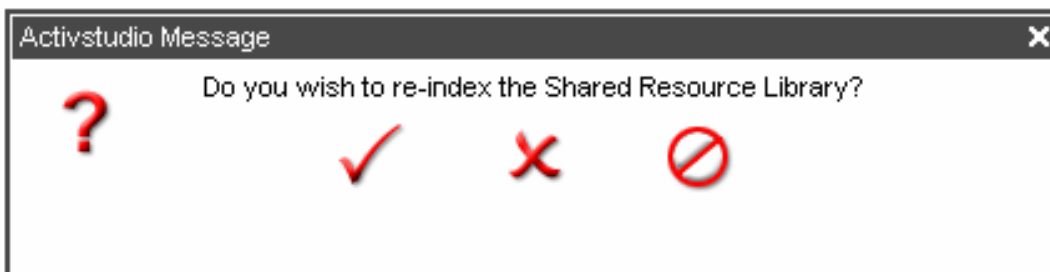

a. To install the resource packs, click on the 'import from resource pack' icon located in the top bar of Activresource Manager.

Locate the folder where you have saved the downloads. Select 'US_AS_Collections.as3a' and click 'Open'.

The resource pack will be installed and you will receive the following message:

b. Click  and repeat step **3a** to import the remaining resource packs.

Once you have installed the final resource pack, click on the checkmark  to re-index the shared resource library (this may take a few minutes).

You are now ready to use your new resource library. Why not use the new export function to share your resources with your colleagues?

Please visit www.prometheanplanet.com for ideas on how others are using their new resources!
